

A living room scene featuring a white fireplace with a wood mantel. The mantel holds two lit candles and a white vase. The fireplace has a black arched opening with a herringbone tile interior and a fire burning. To the right is a floor lamp with a white shade and a metal log holder filled with logs. A white armchair is partially visible on the right. The room has white paneled walls and a wooden floor.

fires collection

the widest range of electric fires imaginable

 Dimplex®

choosing your fire

Why Dimplex Electric Fires?

There is nothing quite like a fire – it creates a wonderful feeling of comfort and cosiness, with the added dimension a warm glow brings to any room.

In most cases, Dimplex electric fires require no installation*, bringing you an incredibly realistic flame effect at the flick of a switch.

Set up is easy, with none of the cost and siting constraints associated with flue and gas connections. All Dimplex electric fires come complete with a fitted plug and many don't even require a mantel or hearth. You simply plug in and go!

With a wide range of traditional and ultra modern designs, we can offer a fire for every living area and for every budget. You can choose from four flame effects—Optiflame, Opti-myst, Revillusion and Prism. Optiflame is our original and the world's best selling electric flame effect fire, while Opti-myst is our patented realistic fully three-dimensional flame effect. Revillusion is our stunning new built-in firebox range perfect for use in a mantel or framed in a wall and Prism is our new full spectrum of RGB coloured flame for a show-stopping effect.

A Dimplex electric fire will bring your home to life, creating comforting ambience in any room.

* wall mounted and inset fires require some installation.

Optiflame[®]

wall mounted fires

Add an eye catching detail to any living space with a Dimplex wall mounted electric fire.

Perfectly positioned at eye level, a wall mounted electric fire is the ideal conversation starter. Mesmerising flames create an unrivalled ambience that is sure to be the centre of attention in the home.

A wall mounted electric fire is ideal for those who may not have the floor space to accommodate another form of fire.

Clova

The minimalist design of the Clova will suit the decor of almost any room. Not only will this electric fire provide warmth and comfort, but being wall mounted will save precious floor space and create a lifelike piece of art which can be enjoyed all year round.

- 2kW heat output
- 2 heat settings (1000W / 2000W)
- Contemporary fire designed for wall mounted use

Opti-myst 3D fires

A revolution in electric fire technology.

Deceptively real, Opti-myst will captivate you from the moment you see it. The fully 3D effect uses established ultrasonic technology adapted from commercial applications to create an ultra-fine water mist that is illuminated to create the 'flames' and the 'smoke'. The result?

An effect that surpasses all expectations for realism in an electric fire.

Scan to see the flame in action!

Mantel not included. Interior design concept only.

opti-myst 3D fires

Silverton

Revolutionary ultrasonic technology is used to create the flame and smoke effect. As the mist rises up through the logs, the light reflects against the water molecules creating a realistic illusion of flames and smoke. The result is an appearance so authentic it could be mistaken for a traditional wood-burning fireplace.

- Contemporary style log grate design with 3D Opti-myst flame and smoke effect
- Can be placed in existing or new fireplaces
- Suitable to move from room to room
- Silent flame and smoke effect operation
- No heater included – flame effect only
- Log fuel bed
- Easy fill water tank - offers up to 8 hours of continuous operation before refilling is required
- Remote control
- Dimensions (mm): 305h x 717w x 356d

Cassette 500 / 1000

Our longest Opti-myst® cassette, spans over 1 metre long and can be connected in a series of cassettes for dramatic linear installations impossible to achieve with gas fireplaces. For the first time these Opti-myst fires can be plumbed to the water supply – removing the need to regularly fill up the bottle. These cassettes can also be connected in series, giving greater flexibility to designs. To further enhance the experience, the cassettes have added sound effects which offer the warming atmosphere of a crackling blaze.

- Enhanced Opti-myst cassettes
- Realistic Opti-myst flame and smoke effect
- Can be plumbed to water supply or bottle fed
- Can be connected in series to other 500 or 1000 cassettes
- Fully variable flame and smoke effect
- No heat - aesthetic only
- Adjustable sound
- LED glowing log bed
- Sound effect of crackling logs
- Remote control
- (CAS500) Dimensions (mm): 240h x 508w x 354d
- (CAS1000) Dimensions (mm): 240h x 1017w x 354d
