

Double Vision

850

Gas Fireplace

The versatility of the Double Vision is what makes this fire so popular. Ideal as a centerpiece in large open areas, it can be configured differently on each side to blend in with two separate living areas, or optioned with one or two glass ends to create an island effect that can be enjoyed from every angle. It can even be optioned with an "Alfresco Window Kit" allowing the fire to be enjoyed from both inside and out!
