Eureka  
Heating

# Specifications

Introducing the latest addition to the Eureka range. The Eureka Cooker can cook and heat simultaneously.

- Use the top of the cooker for pots and pans, whilst roasting in the very functional oven under the firebox.
- Easy to use controls to regulate the oven temperature.
- The firebox opening is at a convenient height for loading timber, and for viewing the dancing flames.
- Optional hot water booster can be used for even more versatility.

The Eureka Cooker would be a great addition to any kitchen or family room.
