

# Pyrotech

Standard or Deluxe

## Demand Efficiency

Available in two models, Standard and Deluxe, the Pyrotech glass fronted space heater heats up to 85m<sup>2</sup> of living space and is designed in Australia to suit the renovation of an existing fireplace, a brand new flush finish or mantel structure, or a free standing unit with an exposed flue. With a unique double glazed front that ensures an uninhibited view of the realistic large-area, random coal and log, or pebble configurations, the Pyrotech is a great looking and practical heating solution for any home.

### Perfect heating solution

The Pyrotech glass fronted space heater has a flame pattern that is the envy of the industry. It can be used to bring your old fireplace to life, replace an existing old gas heater or simply be installed into a new application. There is even a free standing option. With a unique double glazed front that ensures an uninhibited view of the realistic coal and log or pebble configurations, the Pyrotech is a great looking and practical heating solution for any home.
